What a Year!

FISD remains the global forum of choice for industry participants to discuss, understand and facilitate the evolution of financial information.

In 2025, FISD hosted 36 events all over the world including new events in Dubai, Mumbai and Hyderabad.

We dove deep on AI, Cloud, DORA and Consolidated Tape and are looking forward to a new year of topics and emerging trends.

I hope you enjoy our retrospective. I'm looking forward to a fantastic 2026.

A handwritten signature in black ink, appearing to read 'Jim Doherty'.

Hosted events in New York City, Chicago, Boston, Toronto, Amsterdam, London, Madrid, Frankfurt, Dubai, Singapore, Mumbai, Hyderabad, Tokyo, Hong Kong, Sydney.

AsiaFIC

The third AsiaFIC was a resounding success with 18 hours of quality programming across 3 days and 3 venues. 361 local, regional and global representatives attended with delegates from 29 Exchanges, 28 Consumer firms, 28 Data Vendors and 33 Solution Providers.

We really enjoyed hosting you and watching the major trends in our financial data industry being explored through panels, roundtables, workshops and animated interactive social discussions.

We learned how the financial data industry is finally benefitting from segment-agnostic data-related tech innovation (not least AI). The event reaffirmed data's role as a key raw material for financial innovation and predicted 8%+ year-on-year growth in spending and the first bank spending \$1b annually on data. Asia's role in the data industry seems set to grow both in terms of new local data sets and vendors and the region's exploding retail community.

Join us May 20 - 22 in Singapore for the fourth annual AsiaFIC. Registration opens in January 2026.
